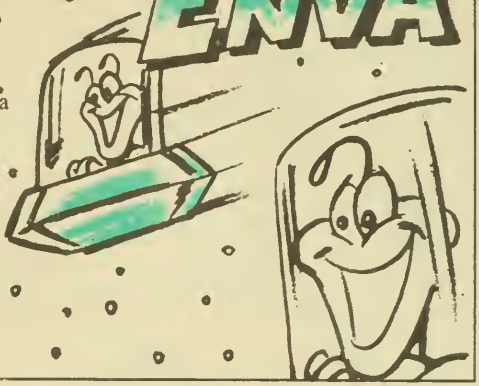
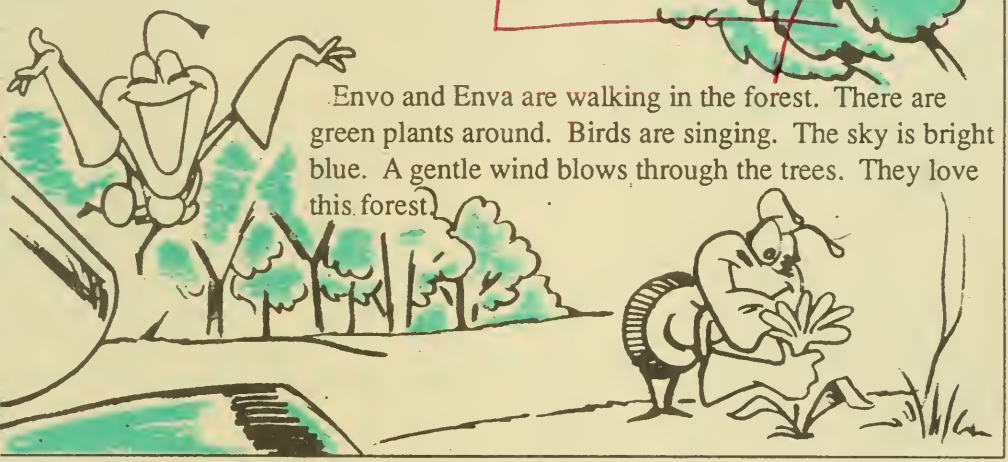
ENVO and his sister ENVA

1006

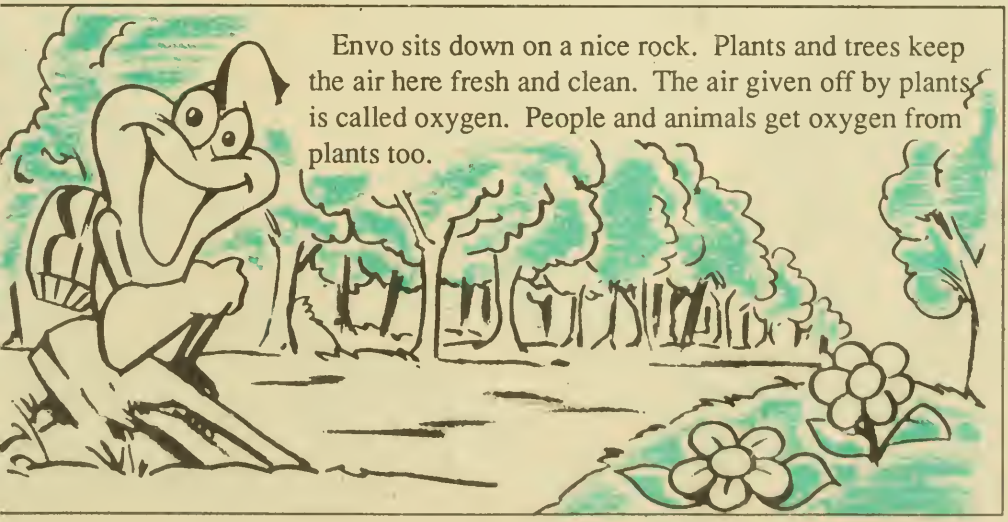
This is Envo and Enva. They come from the planet Verita which is far, far away from Earth. Once Verita was very dirty and polluted. Everyone decided to work hard to clean up the water and air and they did. Verita is beautiful once again!
Now, Earth is having the same problems. Envo and Enva like Earth , so here they are to help us clean up.
Envo says, "Think Clean, Think Green!"



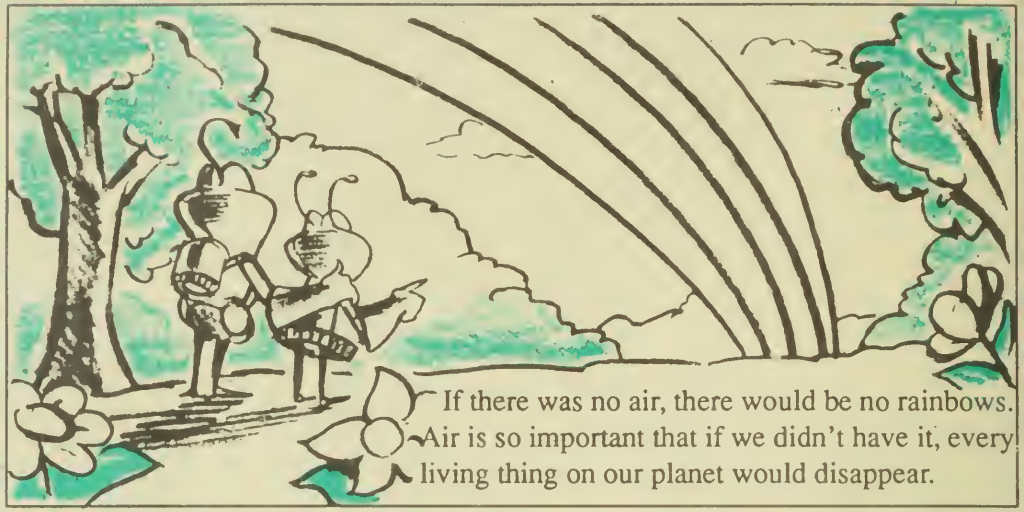
ENVO AND ENVA VISIT EARTH TO CHECK THE AIR



Envo and Enva are walking in the forest. There are green plants around. Birds are singing. The sky is bright blue. A gentle wind blows through the trees. They love this forest.



Envo sits down on a nice rock. Plants and trees keep the air here fresh and clean. The air given off by plants is called oxygen. People and animals get oxygen from plants too.

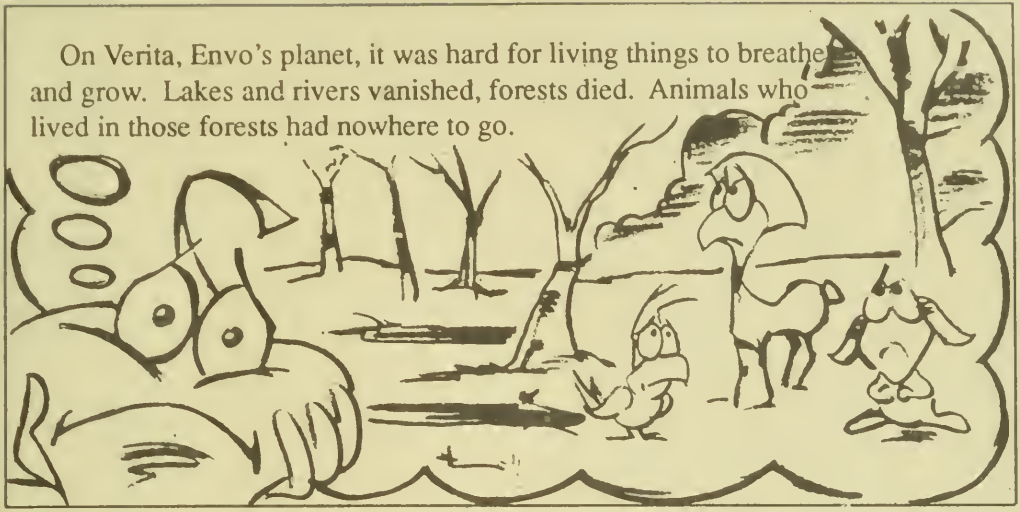


If there was no air, there would be no rainbows.
Air is so important that if we didn't have it, every living thing on our planet would disappear.

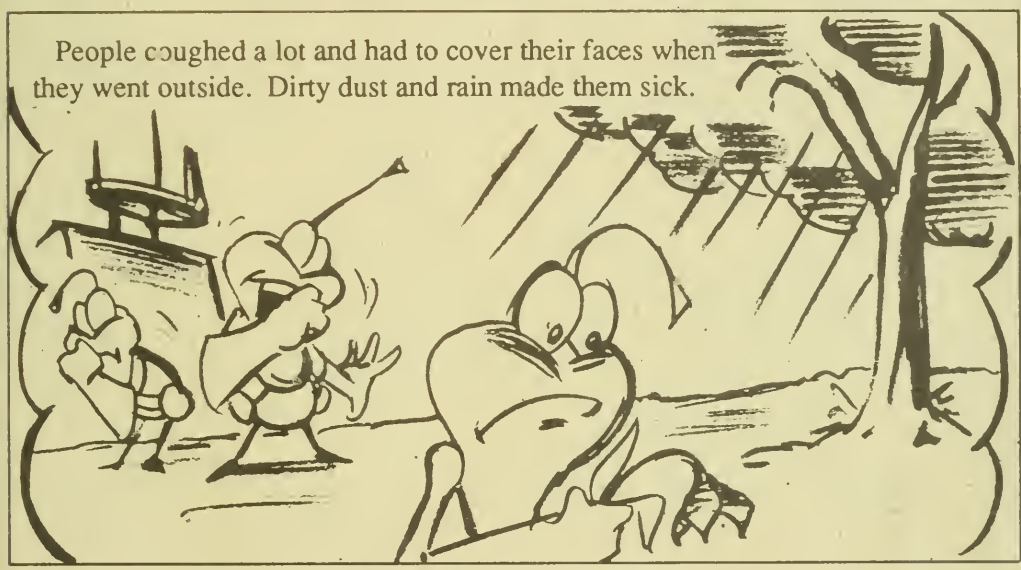
so...
Plants need air, people need air, butterflies need air, elephants need air, monkeys need air, dogs need air, chickens need air, the weather needs air, the sky needs air!
EVERYBODY ON THIS PLANET NEEDS AIR!

But Envo and Enva find that in the cities on Earth, the air is not so good.

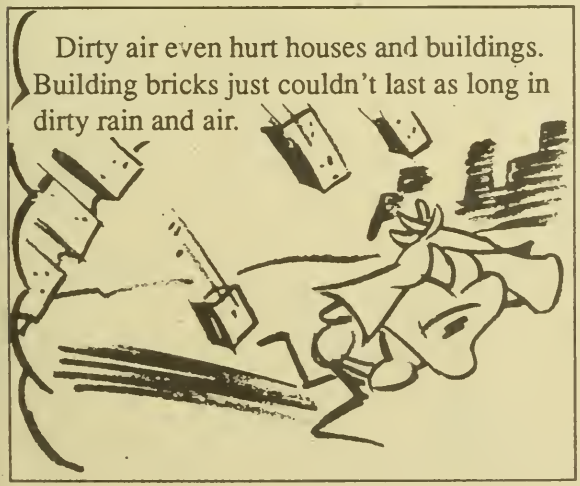
On Verita, Envo's planet, it was hard for living things to breathe and grow. Lakes and rivers vanished, forests died. Animals who lived in those forests had nowhere to go.



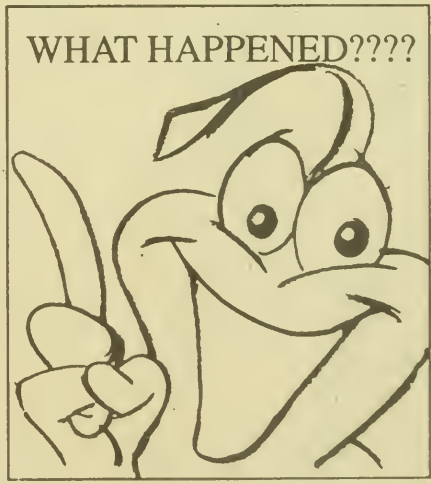
People coughed a lot and had to cover their faces when they went outside. Dirty dust and rain made them sick.



Dirty air even hurt houses and buildings. Building bricks just couldn't last as long in dirty rain and air.



WHAT HAPPENED????

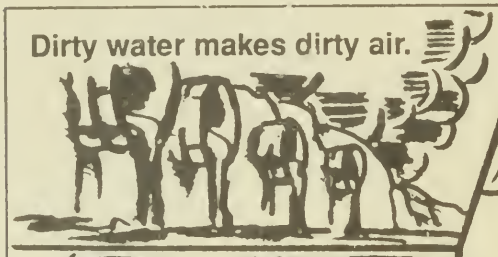


The people on Verita got smart and they worked hard to get their planet clean again. What makes dirty air?

Cars make dirty air.

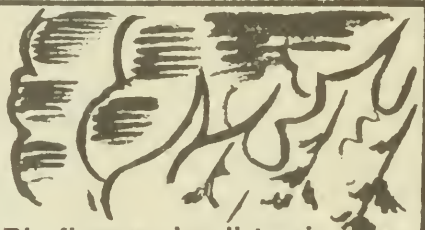
Factories make dirty air.

Dirty water makes dirty air.



Garbage makes dirty air.

Big fires make dirty air.



Envo loves Earth as much as we do. Now that we know what makes air dirty, we can all work together to help clean our air just like Envo and Enva and their friends on Verita.
